Hand in hand we learn

This programme, specially designed according to the Australian Montessori National Curriculum, provides the Grade 11 and 12 learners with an opportunity to be at the centre of their learning. They take ownership of the planning process, develop soft skills and are able to pursue personal areas of interest. It is project-based learning, further increasing the skills attained in the IB Middle Years Programme especially on completion of the MYP Personal project.

In order to achieve the competencies of :

**Life-long learning
Self-agency
Interactive use of diverse tools and resources
Ability to interact with others
Multi-literateness and
Mastery across disciplines**

The learners will complete six in-depth academically rigorous projects, an internship and a digital portfolio which will lead to the acquisition of a Learner Passport Graduation Certification. This new type of leavers portfolio is being used and accepted around the world and will provide access to future employment or the pursuit of tertiary education.
